QUARTERLY JOURNAL

OF THE

Royal Meteorological Society

Editor :
P. A. SHEPPARD

Vol. **76** 1950

LONDON :
ROYAL METEOROLOGICAL SOCIETY
49 CROMWELL ROAD, S.W.7
1950

CONTENTS OF VOLUME 76

PAGE

Editorial 1

Centenary Celebrations 2

A study of the deviations of wind speeds and directions from geostrophic values—W. L. Godson 3

The size distribution of raindrops—A. C. Best 16

Notes on the measurement and estimation of atmospheric radiation—G. D. Robinson 37

The composition of coagulation-elements in cumulonimbus—F. H. Ludlam 52

The nature of ice-forming nuclei in the atmosphere—B. J. Mason .. 59

Constant-height balloons—Calculations of geostrophic departures and discussion ensuing—C. S. Durst and G. H. Gilbert .. 75

Equatorial circulations—N. P. Sellick 89

The effect of the sky/sea brightness ratio produced by the use of colour filters and Polaroid screens—D. R. Barber 95

A note on the relation between ageostrophic winds and isallobaric gradients—M. K. Miles 99

Discussion—
F. Pasquill's papers on evaporation (*Q.J.*, 75 : pp. 239, 249) 103

Reviews 108

The evolution of meteorological institutions in the United Kingdom—Sir Robert Watson-Watt 115

The bright band—a phenomenon associated with radar echoes from falling rain—J. E. N. Hooper and A. A. Kippax 125

The application of the similarity theory of turbulence to atmospheric diffusion—G. K. Batchelor 133

The climatic fluctuation since A.D. 1850 in Europe and the Atlantic—D. J. Schove 147

Troughs in the upper westerlies and cyclonic developments in the Nile Valley—M. G. El-Fandy 166

A note on nocturnal cooling—E. Knighting 173

The intensity of the net meridional circulation—H. Riehl and T. C. Yeh 182

The theory and use of upper air thickness patterns in forecasting—R. C. Sutcliffe and A. G. Forsdyke 189

Notice of new Journals 218

TABLE OF CONTENTS

PAGE

Reviews 219

Canadian Branch 222

Report of the Council for the year 1949 223

Proceedings at meetings of the Society 244

Obituary Notices 253

Frontispiece—Hugh Robert Mill *Medal* .. .. .. —

On the theory of large-scale vortex motion in the atmosphere—R. W. James 255

Variations in thunderstorm severity in Great Britain—J. S. Forrest 277

Some further considerations of the measurement and indirect evaluation of natural evaporation—F. Pasquill 287

Empirical formulae for the terminal velocity of water-drops falling through the atmosphere—A. C. Best 302

The temperatures at the tops of radar echoes associated with various cloud systems—R. F. Jones 312

Discussion—
Radar echoes 330

Shorter Contributions—

Relation between the standard deviations of temperature at constant pressure and at constant height—A. F. Crossley 337

Some comments on the trade-wind cell—H. Riehl and T. C. Yeh 340

North-south profiles of the average zonal wind component at the surface—C. L. Jordan 343

The ratio between observed velocities of the wind at 50 feet and 2,000 feet over the North Atlantic ocean—A. H. Gordon .. 344

Meteorological observations at the Royal Observatory, Greenwich during the year 1949 349

Reviews 350

Proceedings at meetings of the Society 352

Recent additions to library 355

Obituary—Hugh Robert Mill. E.L.H. 356

Natural removal of pollution from the atmosphere—A. R. Meetham 359

Evaporation over the British Isles—H. L. Penman 372

The significance of vertical stability in synoptic development—E. J. Sumner 384

PAGE

Types and spells of weather around the year in the British Isles: Annual trends, seasonal structure of the year, singularities—H. H. LAMB 393

Discussion 430

The microclimate of the potato crop—L. BROADBENT 439

Discussion—
Thunderstorms in Great Britain—J. S. FORREST, S. M. BOWER .. 455

Shorter Contribution—

The measurement and recording of the heat flux into the soil—E. L. DEACON 479

Correspondence—

Evidence for a world circulation—H. C. SHELLARD and A. W. BREWER 484

Summer weather of the Sudan—H. K. SOLIMAN and M. G. EL-FANDY 487

Measurement and estimation of atmospheric radiation—LEWIS D. KAPLAN and G. D. ROBINSON 489

Meridional transport of angular momentum in the atmosphere—V. P. STARR, H. RIEHL and T. C. YEH 491

Nocturnal cooling—E. KNIGHTING 494

Reviews 495

Notice of *Journal of Atmospheric and Terrestial Physics* 502

Recent additions to library 502

Proceedings at meetings of the Society 503

Hugh Robert Mill Medal 505

Obituary Notices 507

Index 509
